Scott the DJ
Odyssey Sound & Light

24 SEVEN Events & Marketing, Inc.

Scott the DJ

It's a big event, special day, or you just need the right DJ to make the party fun... How do you choose the right DJ ?? We can help!

Experience makes a difference:

Scott the DJ has been playing at wedding receptions, parties, reunions, school dances and more for 18 years. He knows how to tailor each event to the client's wishes, from dinner music to dance music, announcements, and of course fun! In addition, Scott was also the "House DJ" at Diamonds Sports Bar for nearly 10 years. Scott the DJ does more than spin music, he is constantly coming up with new ideas and fun ways to engage the crowd and make sure everyone is having a great time.

What type of music & equipment:

Scott the DJ has over 4,000 CD's for every event, ranging from 1940's to today's popular hits. That's roughly 45,000+ songs, enough music to play continuously for three months without repeating a song. All the audio equipment is less than two years old and top of the line.

What do you get:

The total cost includes the entire night of DJ service (approximately six hours), dinner music & dance music, from start to finish. It also includes all the lights and a wireless microphone. There are no hidden costs. *The price does not include gratuity... tipping should be based on a job well done. Call today for pricing and availability.
